

AZED No. 2,330 'RIGHT & LEFT' COMPETITION PUZZLE

Name _____

Address _____

Apart from **1Across**, which is normal, each clue is really two clues, side by side but not overlapping, the answers to which are to be entered in the two similarly numbered spaces in the diagram, either side of the central vertical bold line. Either word may be clued first, and the division is not necessarily marked by punctuation. Solvers must determine which goes where.. The individual clues forming part of each double clue may not make much sense. Competitors should submit with their solutions a double clue to replace the asterisked definitions at **15** (which are presented in alphabetical order of their solutions).
