

Report 2

Pigeon feeder taken to court

Lauren-Paige Smith said she was only “feeding the birds” when she got a fine from a council worker for littering. Miss Smith said: “The person who gave me the fine did not give me any warning or tell me to pick anything up.”

The local council stated: “If you are caught throwing food you will be given a fine for littering. We have had problems with angry birds attacking people out shopping nearby. We want to make the city centre a clean and nice place for people to visit.”

The judge will be speaking to council workers and other witnesses before continuing the case.
