Nine words: \_\_\_\_\_

All clues must have a word removed before solving. These words, along with the completed grid, will be extremely helpful in identifying the cause of a stampede 20 years ago this month and a related phrase.

Across clues contain five words and down clues five more which hint at who was responsible.

Unclued entries indicate nine words which must be written above.

Deadline for entries is 23:59 GMT on Saturday 31 January. You need to register once and then sign in to [theguardian.com](http://theguardian.com) to enter our online competition for a £100 monthly prize.
